

I am writing to ask that the Indiana Telephone Privacy Act not be weakened by proposal 02-278. I enjoy the protection of the Indiana Telephone Privacy Act in preventing unwanted telephone solicitations. I work at home and was constantly interrupted by calls I did not want from both people who considered me their customer and those that did not. This problem has lessened since I asked for protection under the Indiana Telephone Privacy law and I would dread returning to the old status. My time is valuable to me and I do not enjoy wasting it at the convenience of those with whom I have no desire to communicate. Please maintain the protection that I currently enjoy.
